murasaki original soundtrack

I thought it's gonna be a random Touhou bullet hell (Danmaku) clone. NO ITS NOT. and it's amazing!

incredibly cute mechanics, very cute character ideas with very interesting backgrounds, marvelous music (Ghibli-esque Aesthetics) beautiful art after clearing a stage and very very challenging difficulty.

You really just want to clear every stage with both characters to unfold the story beneath all those bullets.

very beautiful game got it for 2,50 bucks and its amazing definetly recommending it to everyone whos a Touhou-fan or someone who needs a challange.
